## DETAILED ACTION

### *Specification*

1. The disclosure is objected to because of the following informalities: in the specification, the element is not consisting such that in page 15; line 11: "a connection 18" then in page 16; line 17: "housing 18", in page 15; line 13: "flat walls 7,8" then in line 32-33: "plane surfaces 7 and 8" or "segment 7 and 8", in page 15; line 34: "continuations 19 and 20" then in page 16; line 8: "parts 19 and 20" or in line 21: "cylindrical wall 19", line 24: "cylindrical wall 20", in line 33-34: "circles 19 and 20" or in page 17; line 34: "sections 19, 20" and in page 18; line 30: "acoustic wave generator" then in page 19; line 10: "resonator 14"

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The scope of the claim is unclear. The Examiner can't determine the scope of the claim for example the Examiner cannot see how a lateral wall secant to the nozzle

Art Unit: 2853

plate or how the first section only of each cavity possibly being constituted in the main section. No further examination at this time.

3. Claim 1 recites the limitation "the first section" in line 13, "the main body" in line 15 and "the axial line" in line 27. There is insufficient antecedent basis for this limitation in the claim.
